

Everything you find in Salin de Biosel's products

Bioséquentielle. **The ultimate revitalising formula.**

Bioséquentielle is Christian Colotte's innovative idea that manages to reproduce the ascending movement of nutritional properties found in the plant world. Following this extraordinary formula, all Salin de Biosel skin care products contain extracts from: roots, bark, leaves and flowers, maximizing the power of their different, yet complementary nourishing properties. The phytotherapeutic selection of extracts and the sequence in which they are combined (the real secrets of the Bioséquentielle formula) transfer new sensorial stimulants of well-being to the skin, providing a natural concentration of vitality and energy to the face and body.

Our commitment

Salin de Biosel's products are made by rigorously selecting natural ingredients in order to guarantee the best quality and verify their origin. On this basis we can affirm that Salin de Biosel does not use genetically modified organisms (GMOs), animal-derived or animal-tested ingredients nor substances derived from petroleum. We are firmly committed to offering consumers products that are constantly being improved, both in terms of their naturalness and safety.

East meets West. **On your body.**

Another fundamental element of Salin de Biosel's philosophy is Oriental bioenergy: the balance between Yin and Yang, the two opposing, yet complementary energy forces create harmony within the universe and the individual and has an equally powerful effect on the skin. Yin calms the energy surplus in skin functions while Yang compensates energy for deficits. The unique energetic identity of each and every Salin de Biosel product restores the original balance of the skin, generates an intense vitality and provides new radiance.

IF YOUR MEMORY PERFECTLY RETAINS THE IMAGE OF YOUR CONTOURS, YOUR BODY TISSUE, HOWEVER, HAS PARTIALLY LOST ITS MEMORY OF ELASTICITY.

Every supporting elastic fiber is made of cells that are programmed to preserve the toning and elasticity of body tissue. As time goes by, the cell's memory “de-programs itself,” resulting in a visible loss of skin toning. The new tonifying Lift Memory line, Bioséquentielle formula Yin, reprograms the dynamic memory of skin fibers by restoring lightness and vitality to your breasts and toned tissues and dynamism to your body.

Lift Memory Buste

Firming, draining and re-shaping treatment serum for the breasts. Prevents stretch marks and quickly helps breasts regain their toned lightness.

BIOSEQUENTIELLE ACTION
This natural plant energizing cocktail is the key to restoring the fibers' memory. It reduces skin stress and reactivates osmotic exchanges. Body tissue regains its toning thanks to an invigorating cell regeneration.

ENERGETIC ACTION
Lift Memory Buste is indeed an energy-producing engine that restores toning to breast-supporting fibers. Each plant releases its own vitality and merges into a single flow of powerful and compact Yin energy. The transfer of energetic data is activated in order to re-program the dynamic memory of skin fibers.

APPLICATION
Apply on breasts and their contours in the morning and evening, performing a massage that follows a star-shape movement from the nipples to the base. It is specially recommended during pregnancy and after the breast-feeding period, during a weight-loss diet or to regularly maintain the breasts' toning.

RESULTS
An incredibly comfortable sensation even after the first application. The breasts regain their toning and a nourished skin becomes more elastic, thus preventing stretch marks. The bosom will look splendid.
