

Ressource Yin

It revitalises nervous system flows that are responsible for a healthy vascular circulation and cellular regeneration.

BIOSEQUENTIELLE ACTION

In combination with our **Complexe Réparateur Apaisant***, this formula provides essential nourishment and acts as a calibrator of skin functions. It is used as a healing agent in post-surgery, post-peeling and micro-cosmetic surgery treatments. It also soothes irritations and diminishes hypersensitivity. Its non-allergenic UVA-UVB Eco-filter strengthens the skin's immune system and protects it against harmful sunrays

ENERGETIC ACTION

Being rich in anti-irritation alkaloids and Yin algae emollients, it quickly reduces all excessive Yang energy that causes diffused redness, rosacea and acne. It provides the necessary Yin energy for firm and compact skin tissue.

APPLICATION

Apply it every morning and evening, after applying the milky lotion and the tonic and before the specifically recommended cream. Perform a rotational massage to help complete absorption.

RESULTS

It produces an immediate sensation of well-being and softness. A soothed skin regains a uniform colour; relaxation and serenity return to your face.

BIOSEQUENTIELLE FORMULA

Flower	Poppy	It quickly diminishes swelling and restores firmness and vitality to the skin.
Leaf	Ash	Its polyphenol content has an anti-oxidant and anti-inflammatory effect that quickly diminishes redness. Given the diuretic properties of the potassium salt found in its mannitol content, it drains and eliminates free-radicals.
Bark	Elm	Its anti-swelling action slows down the production of free-radicals while diminishing irritation and redness.
Root	Ginseng	Being rich in amino-acids, minerals, vitamins and essential enzyme, it enhances the dynamism of the energetic system by facilitating the exchange between Yin and Yang that combats fatigue.

COMPLEMENTARY INGREDIENTS

Complexe Réparateur Apaisant *: Composed of a synergy of plant extracts and a lipoamino structure containing potassium and magnesium.

Solar UVA-UVB eco-filter: Composed of suspended micro-particles that act both as micro-pigments and absorbers of a wide spectrum of UVA-UVB rays. Very photostable under sunlight and non-allergenic, without any harmful effects on the skin.

Esculine: Extracted from Horse Chestnut bark; it absorbs ultra-violet rays and protects the skin against sunlight; it also enhances circulation and encourages cellular regeneration.
