LAUCALA ISLAND SPA AT LAUCALA (LAUCALA.COM) LAUCALA ISLAND, FIJI

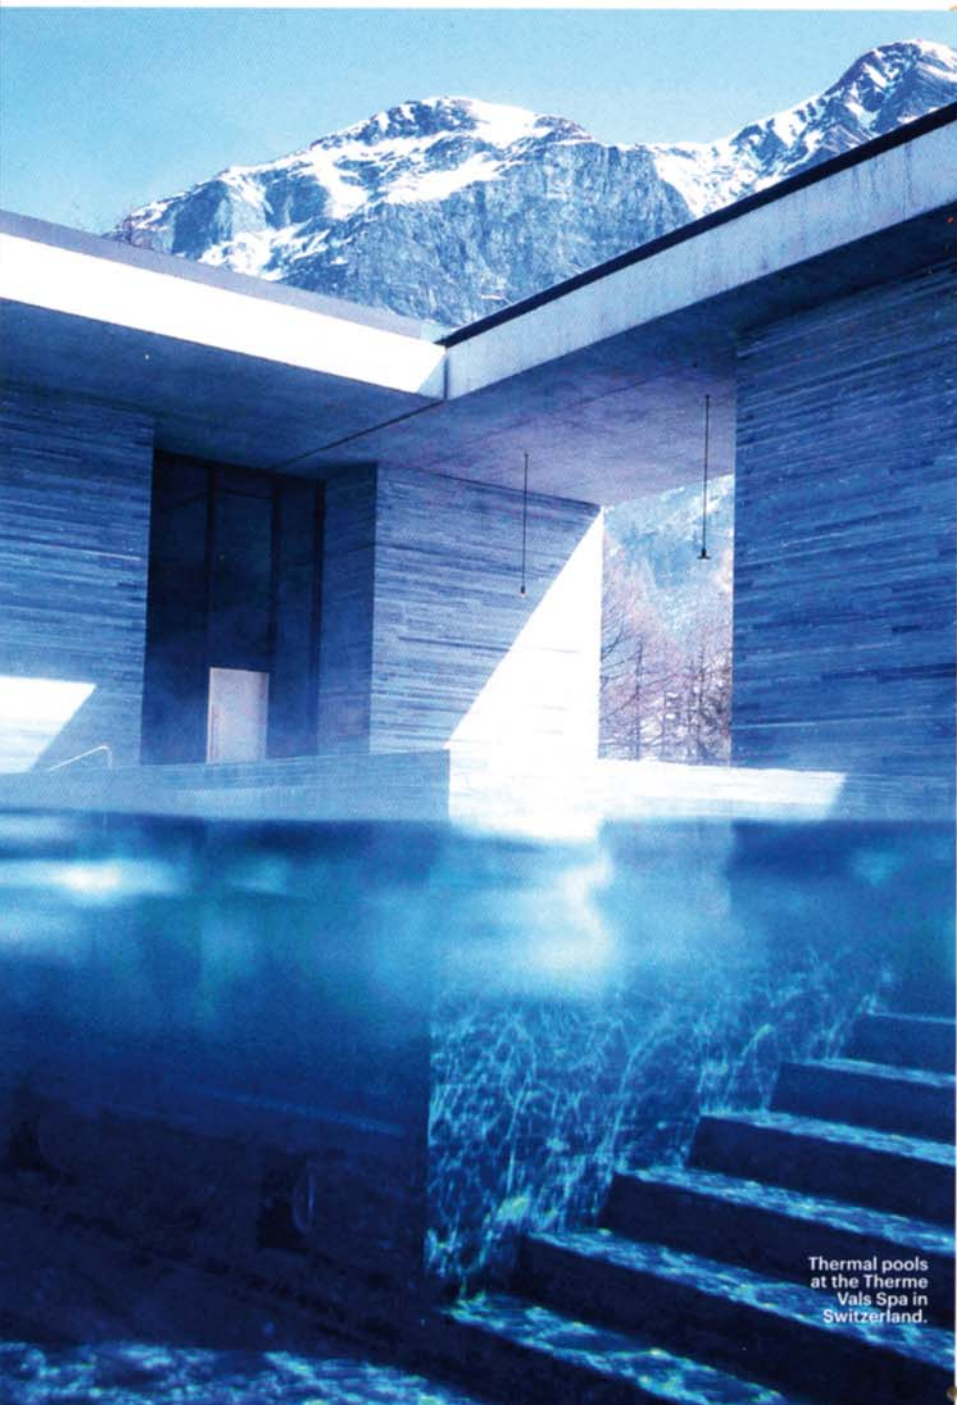

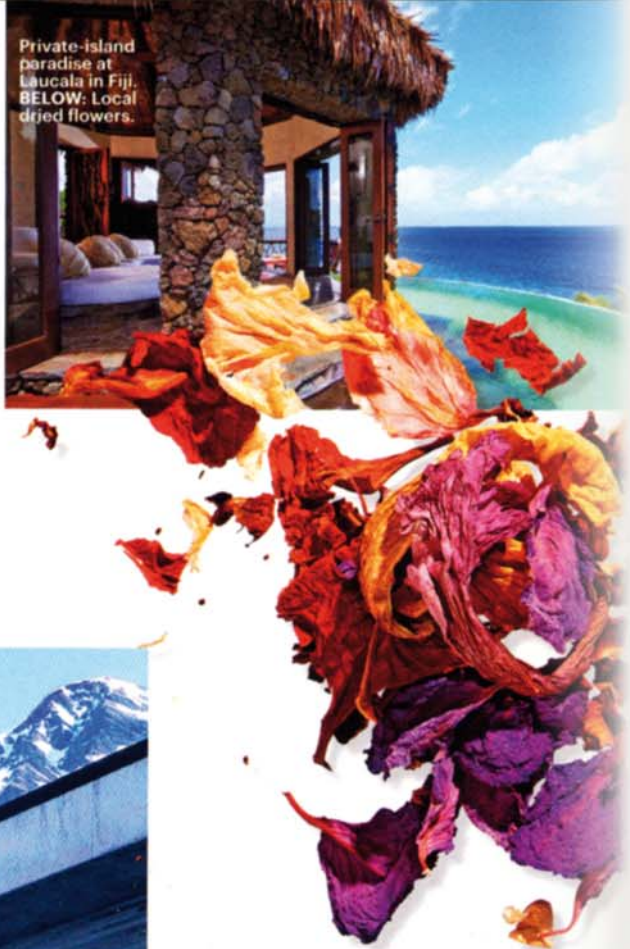

CHECK IT OUT: Ever wish you were invited to a private island? Red Bull cofounder Dietrich Mateschitz has officially opened his own personal oasis to the public, giving a whole new meaning to "exclusive."

DIY
Organic Fiji
Lavender Cold
Pressed
Coconut Oil, \$10.

SIGNATURE TREATMENT: Traditional Fijian flowers and fruits are infused into various "rituals" offered at the spa, but we especially love that guests can pick their own native spices and herbs on-site to craft a DIY essential-oil blend.

Private-island paradise at Laucala in Fiji. **BELOW:** Local dried flowers.

Thermal pools at the Thermo Vals Spa in Switzerland.

THERME VALS SPA AT HOTEL THERME VALS (THERMEVALS.CH) VALS, SWITZERLAND

CHECK IT OUT: Architect Peter Zumthor's sleek, modern design, strategically built over natural springs in Graubünden Canton (think storybook Heidi's hangout), is basically sensory overload, in a good way. The quarry-like quartz structure houses therapeutic thermal baths that are worth the pruny fingers.

SIGNATURE TREATMENT: Try the Water Massage (\$118), which takes place in a 95-degree pool and combines Shiatsu techniques with the healing benefits—improved circulation and joint-pain relief—of warm mineral water. Afterward, take a hike (yeah, right) or, say, how about a nap?
